Darko Fan Colour Edition Build Sheet

Bedside fan in five colours, with night light · a Coffeebreak design by Karen O'Brien

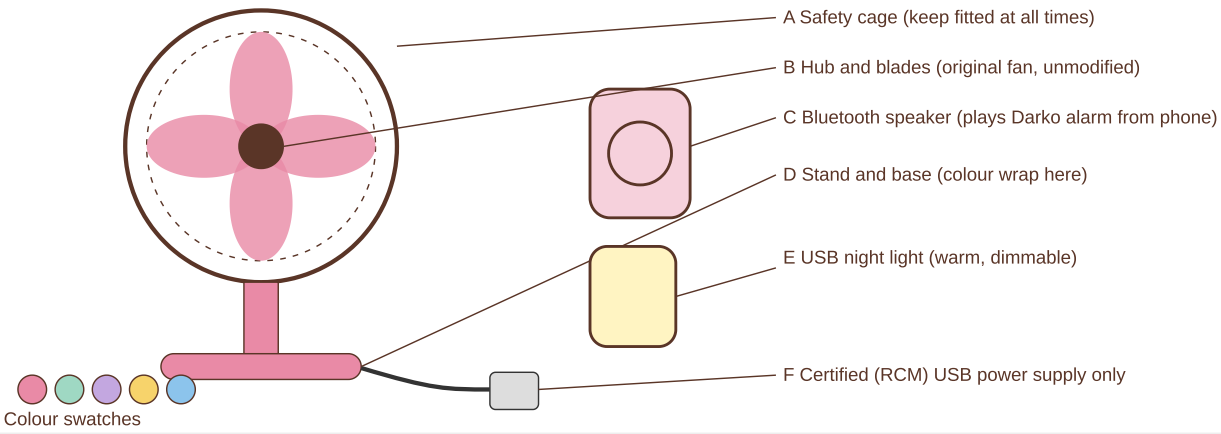

Overview

A bright, light bedside fan in your choice of five colours, with a soft USB night light and a small speaker that plays the Darko alarm and your music by Wi-Fi or Bluetooth. Everything runs on certified USB power, so no electrician is needed.

Colours: Pink · Mint · Lilac · Sunshine · Sky blue

Safety first. Power everything from a certified, RCM-marked USB power supply or power bank only. Do not open the fan motor, change its wiring, cut USB cables or use unbranded chargers. Keep the safety cage fitted. Do not cover the fan or light while on, and keep cords away from children and pets. Supervise children.

Step-by-step assembly

1. Test the fan, night light and speaker on the certified USB charger before changing anything.
2. Unplug everything. Pick one of the five colours and clean the fan base and stand.
3. Mask the cage, blades, switch and sockets. Wrap or paint only the base and stand, in thin coats, and let them dry.
4. Add decals to the base, away from the cage and blades.
5. Place the night light and speaker beside the fan on the bedside table. Hold them in place with hook-and-loop strips.
6. Plug all three into the one certified USB charger. Do not daisy-chain cheap adaptors or use unbranded chargers.
7. Set up the speaker in its app on Wi-Fi or pair it by Bluetooth. Set the "Wake up from Darko" sound as your alarm.
8. Set the night light to a low, warm glow and test everything together.

Care

Unplug or switch off before cleaning. Wipe with a dry or slightly damp cloth. Check blades, cage, cords and chargers now and then, and stop using anything that is damaged, hot or wobbling.
