The idea

Coffeebreak Makeup turns the colours of a café menu into everyday makeup: espresso, latte, mocha, caramel and a cherry red inspired by the 1940s pin-up look. Every product carries the Coffeebreak logo and a warm coffee-brown, cream and gold pack design.

- Hero story: coffee shades and coffee-scented formulas (coffee butter, coffee-derived pigment, fine coffee grounds in the scrub), subject to manufacturer formulation.
- Audience: shoppers aged 16 to 35 who like café culture, vintage pin-up style and giftable beauty.
- Brand link: the range ties in with Coffeebreak fashion, tattoo flash, music and apps at https://coffeebreaks.itch.io.
